Survey Questionnaire for Alumni Respondents Justifying the Necessity of an Alumni Tracing and Placement System

Instructions: This survey assesses the necessity of a Web-Based Alumni Tracing and Placement System at Laguna State Polytechnic University – San Pablo City Campus. Your responses will help determine how the system can improve alumni engagement, job placement, and university planning. Please indicate your level of agreement with each statement.

Likert Scale for Statistical Analysis:

- **5 – Strongly Agree**
- **4 – Agree**
- **3 – Neutral**
- **2 – Disagree**
- **1 – Strongly Disagree**

Section 1: Alumni Tracing and Data Management

1. **I find it difficult to update my employment status with the university due to the lack of a dedicated alumni tracking system.**

2. **The current method of alumni tracking, which relies on surveys and spreadsheets, is not sufficient in keeping my career information updated.**

3. **A centralized and automated system for updating alumni information would encourage me to stay connected with LSPU.**

4. **I want to receive updates and announcements from LSPU regarding career opportunities and networking opportunities.**

5. **A Web-Based Alumni Tracing System would allow me to conveniently update my employment status without manually responding to surveys.**

Section 2: Job Placement and Career Support Needs

6. After graduating, I had difficulty finding job opportunities related to my field through the university's current system.

7. I would benefit from an online job portal where I can find job postings from employers looking for LSPU graduates.

8. It would be helpful if LSPU could provide career guidance, job postings, and networking opportunities through a dedicated alumni platform.

9. A system that automatically matches my skills and qualifications with job opportunities would increase my chances of finding employment.

10. I would be more inclined to use a university-supported alumni job placement system than relying solely on external job search platforms.

Section 3: System Usability & Security Concerns

11. I am concerned about the security of my personal information when using online job search platforms, making a university-managed system more appealing.

12. A responsive alumni system would allow me to easily update my career status and find job opportunities on my phone or tablet.

13. An alumni system with a secure login and authentication process would make me more confident in sharing my employment details.

14. Having access to employment trends and reports of LSPU graduates would help me understand how my degree aligns with industry demands.

15. A Web-Based Alumni Tracing and Placement System would improve alumni engagement, job placement, and career development opportunities.
